

NAMAN SHARMA

Data Scientist | Python Developer | ML Engineer
8829052087 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Alwar, Rajasthan

PROFESSIONAL SUMMARY

RESULTS-DRIVEN DATA SCIENCE AND PYTHON DEVELOPER WITH HANDS-ON EXPERIENCE IN MACHINE LEARNING, SQL, DATA ANALYSIS, AND API DEVELOPMENT. SKILLED IN BUILDING END-TO-END ML PIPELINES INCLUDING EDA, FEATURE ENGINEERING, MODEL TRAINING, AND DEPLOYMENT USING FLASK AND FASTAPI. EXPERIENCED IN REAL-WORLD DATA PROJECTS, COMPUTER VISION APPLICATIONS, AND PREDICTIVE ANALYTICS THROUGH INDUSTRY SIMULATIONS AT BRITISH AIRWAYS AND TATA IQ. SEEKING ENTRY-LEVEL OPPORTUNITIES IN DATA SCIENCE, MACHINE LEARNING, OR PYTHON DEVELOPMENT.

Languages	Python, SQL (MySQL), JavaScript, HTML, CSS
Libraries	NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, OpenCV, MediaPipe
ML / AI	Supervised Learning, Feature Engineering, EDA, Model Evaluation, Cross Validation, Statistics, Deep Learning (Basics)
Frameworks	FastAPI, Bootstrap
Tools	GitHub, Jupyter Notebook, Power BI, MS Excel, VS Code, MS Office

SOFT SKILLS

Problem Solving • Analytical Thinking • Effective Communication • Team Collaboration • Continuous Learning • Attention to Detail

EXPERIENCE

- Data Science Job Simulation — British Airways** (via Forage) 2026
 - Scraped and analysed airline customer review data using Python and BeautifulSoup; built a Random Forest classifier to predict customer booking behaviour using cross-validation and feature engineering.Certificate: [View Certificate](#)
- GenAI Powered Data Analytics Simulation — Tata iQ** (via Forage) 2026
 - Designed an ethical GenAI-powered analytics solution to predict credit card delinquency risk and built an AI intervention recommendation framework for a financial client.Certificate: [View Certificate](#)
- Data Science & Machine Learning Trainee — Tips-G, Alwar** 2024 – 2026
 - Developed 3+ end-to-end ML projects covering data ingestion, EDA, feature engineering, model training, and REST API deployment using Flask and FastAPI.
 - Applied Scikit-learn pipelines for supervised learning; optimised models via cross-validation, hyperparameter tuning, and structured data visualisation.

PROJECTS

- House Price Prediction Web App** [[GitHub](#)]
 - End-to-end ML web app (Python, Scikit-learn, Flask, FastAPI) with real-time REST API; trained and compared Linear Regression and Random Forest models with cross-validation and feature engineering.
- Hand Gesture Control System** [[GitHub](#)]
 - Real-time computer vision system (OpenCV, MediaPipe) that maps hand gestures to mouse control and volume commands; optimised for low-latency performance across varying lighting conditions.
- Online Booking Web App** [[GitHub](#)]
 - Responsive full-stack booking platform (HTML, CSS, Bootstrap, JavaScript) with user registration, reservation management.

EDUCATION

- Bachelor of Computer Applications (BCA)** — Manipal University, Jaipur 2024 – Expected 2027

Coursework: Programming Fundamentals, Computer Architecture, Mathematics
- Data Science Program (Completed)** — Tips-G, Alwar 2024 – 2026

Coursework: Machine Learning, Data Analysis, Python, SQL, Statistics, Automation, Data Visualization

CERTIFICATIONS

- ☐ **Data Science Simulation — British Airways** — Forage, 2025
- ☐ **GenAI Data Analytics Simulation — Tata iQ** — Forage, 2025
- ☐ **Python Certificate** — Kaggle
- ☐ **Data Science Certificate** — Simplilearn
- ☐ **Pandas Certificate** — Kaggle
- ☐ **Python for Data Science Certificate** — Saylor.org
