

NAMAN SHARMA

Data Scientist | Python Developer | ML Engineer
8829052087 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Alwar, Rajasthan

PROFESSIONAL SUMMARY

RESULTS-DRIVEN DATA SCIENCE AND PYTHON DEVELOPER WITH HANDS-ON EXPERIENCE IN MACHINE LEARNING, SQL, DATA ANALYSIS, AND API DEVELOPMENT. SKILLED IN BUILDING END-TO-END ML PIPELINES INCLUDING EDA, FEATURE ENGINEERING, MODEL TRAINING, AND DEPLOYMENT USING FLASK AND FASTAPI. EXPERIENCED IN REAL-WORLD DATA PROJECTS, COMPUTER VISION APPLICATIONS, AND PREDICTIVE ANALYTICS THROUGH INDUSTRY SIMULATIONS AT BRITISH AIRWAYS AND TATA IQ. SEEKING ENTRY-LEVEL OPPORTUNITIES IN DATA SCIENCE, MACHINE LEARNING, OR PYTHON DEVELOPMENT.

Programming Languages	Python, SQL, Basic JavaScript, HTML, CSS, Bootstrap
Machine Learning	Regression, Classification, Clustering, Advanced Feature Engineering, Feature Selection, Cross-Validation, Hyperparameter Tuning
Deep Learning	ANN, CNN, RNN, LSTM, TensorFlow, Keras (working exposure)
NLP & Text Analytics	Text Preprocessing, TF-IDF Vectorization, Multiclass Text Classification
Libraries & Frameworks	NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, XGBoost
Model Deployment	Flask, FastAPI, Render, Streamlit
Tools, Databases & Platforms	GitHub, Jupyter Notebook, VS Code, Google Colab, MySQL
Other	Data Visualization, EDA, Data Cleaning & Preprocessing, Statistical Analysis

SOFT SKILLS

Problem Solving • Analytical Thinking • Effective Communication • Team Collaboration • Continuous Learning • Attention to Detail

EXPERIENCE

- Data Science Job Simulation — British Airways** (via Forage) 2026
 - Scraped and analysed airline customer review data using Python and BeautifulSoup; built a Random Forest classifier to predict customer booking behaviour using cross-validation and feature engineering.Certificate: [View Certificate](#)
- GenAI Powered Data Analytics Simulation — Tata iQ** (via Forage) 2026
 - Designed an ethical GenAI-powered analytics solution to predict credit card delinquency risk and built an AI intervention recommendation framework for a financial client.Certificate: [View Certificate](#)
- Data Science & Machine Learning Trainee — Tips-G, Alwar** 2024 – 2026
 - Developed 3+ end-to-end ML projects covering data ingestion, EDA, feature engineering, model training, and REST API deployment using Flask and FastAPI.
 - Applied Scikit-learn pipelines for supervised learning; optimised models via cross-validation, hyperparameter tuning, and structured data visualisation.

PROJECTS

- Crop Recommendation System** [[GitHub](#)]
 - Machine Learning system that recommends the most suitable crop for cultivation based on soil nutrients (Nitrogen, Phosphorus, Potassium) and environmental factors (temperature, humidity, pH, rainfall); performed EDA, label encoding, and trained a classification model with Scikit-learn, saved and deployed using Joblib.
- Old Car Price Prediction** [[GitHub](#)]
 - Regression-based ML app that predicts the selling price of used cars using the Cars dataset (4,340+ records); performed data cleaning, EDA, and feature encoding, trained a Random Forest Regressor, and deployed real-time price predictions via a Streamlit web app.
- House Price Prediction Web App** [[GitHub](#)]
 - End-to-end ML web app (Python, Scikit-learn, Flask, FastAPI) with real-time REST API; trained and compared Linear Regression and Random Forest models with cross-validation and feature engineering.

EDUCATION

- Bachelor of Computer Applications (BCA)** — Manipal University, Jaipur 2024 – Expected 2027
Coursework: Programming Fundamentals, Computer Architecture, Mathematics
- Data Science Program (Completed)** — Tips-G, Alwar 2024 – 2026
Coursework: Machine Learning, Data Analysis, Python, SQL, Statistics, Automation, Data Visualization

CERTIFICATIONS

- [Data Science Simulation — British Airways](#) — Forage, 2025
- [GenAI Data Analytics Simulation — Tata iQ](#) — Forage, 2025
- [Python Certificate](#) — Kaggle
- [Data Science Certificate](#) — Simplilearn
- [Pandas Certificate](#) — Kaggle
- [Python for Data Science Certificate](#) — Saylor.org
